

Preparations:

- Clean the edge of the sunshade with, for example, denatured alcohol or isopropanol to remove any residue of dirt, grease, and wax.

Assembly and Installation:

1. Remove the protective film from the Arc/Arc+ LED strip and press it onto the edge of the sunshade.
2. Mount the included clip brackets at the ends of the strip.
3. Drill a hole through the edge of the sunshade for the power cable.
4. Thread the cable through the same rubber bushing as the cap lighting and connect the LED strip.
The connections can be made either via the position lights, the ignition (fuse 108), or a separate power switch.

Connection:

Arc Top Sign Light White or Orange light

47122161 / 47122163

Red: 24V DC "+" (White or orange light)
Black: Ground "-"

Arc+ Top Sign Light White and Orange light

471223231

Red: 24V DC "+" (White light)
